

Village Montessori School

At Bluemont

MISSION STATEMENT

Village Montessori School at Bluemont is a co-educational “Children’s House” committed to the Montessori philosophy and principles of education. The school offers an individualized learning environment that responds to a child’s unique abilities, learning styles, and interests through excellent teachers, and a specially prepared and fully equipped Montessori classroom. We will strive to meet the diverse backgrounds of the children in an atmosphere of mutual respect and cooperation. We are open to the expansion of our facility as needs of the community dictate.

Village Montessori School is being established in Loudoun County at a time when we must educate our children with a sense of responsibility to family, school friends, community, country and our global neighbors. Village Montessori as a school will seek to undertake projects that teach by example the process of giving a helping hand to those less fortunate than we are. These projects will be undertaken by individuals and groups as they feel lead to participate and will not be a requirement in the school culture.

VISION STATEMENT:

To embark upon the establishment of a Montessori “Children’s House” (Village Montessori School) that will meet the criteria established by Maria Montessori for the cosmic education of the future adults of planet earth.

IDENTITY:

We are a school operated by Montessori Teachers who have worked with each other for an extended period of time. We care deeply about the well-being of children and are dedicated to making their well-being a higher priority in the minds and hearts of our school community. 30 years ago we took our training directly under the watchful eye of **Dr. Helen Billings**. She instilled in all of us a deep conviction that the Montessori method properly approached and applied would affect the formation (spiritual, psychological, emotional, physical, cognitive and social development) of the children under our care.

This love for the child and the man/woman they might become has not grown dim. Though many years have passed with great joy and pleasure, we have been called back to the beginning of our own dream of establishing a “Children’s House” that will attempt to meet the individual needs of every student who comes, and profoundly influence for the good the course of his/her personal destiny.
